

Please read the important alert

From Harrison Township Police Department

All concerned,

Within the last two weeks, the police department was notified and began to investigate a theft from a motor vehicle while it was parked at William Wilt Park during a soccer skills camp.

The investigation has progressed enough where we can say with some certainty that the theft was perpetrated by a highly organized identity theft and credit card fraud ring that is operating on the entire East Coast. This group of individuals specifically target sports complexes and parks. The majority of the thefts are from unlocked vehicles and the credit card charges begin almost immediately after the theft.

Please disseminate this information to all parents who are involved in sports and utilize our complexes. As a reminder we would ask that everyone take an extra moment to make sure your vehicles are locked while parked at sporting events.

Please report any suspicious activity as soon as you see it.

Thank you,

Chief Thomas F. Mills
